DIGITAL MULTIFUNCTIONAL SYSTEM CD 1435/1445

A PARTNER YOU CAN DEPEND ON.

IF ONLY EVERYTHING WORKED AS WELL AS THE DIGITAL A3 MULTIFUNCTIONAL SYSTEMS CD 1435 AND CD 1445! THEY ALLOW YOU TO PRINT, COPY, SCAN AND FAX* AS SIMPLY AND RELIABLY AS YOUR OFFICE ROUTINE REQUIRES – AND AS YOU DESERVE.

These two systems feel particularly at home in office environments with medium volumes. Regardless of whether you use them in an entire department or in individual teams, everyone in your office will be served to their utmost satisfaction. And the optional accessories allow both systems to be even more closely tailored to your individual needs as a user. The HyPAS technology is also perfect for implementing your specific requirements, allowing you to integrate individual workflows. The exten-

sive scan functions complete this allrounder, while the option to create scans in colour deserves to be highlighted. Furthermore, the original feeder with its Dual Scan* function allows you to scan the front and reverse sides of a document in one operation, thus saving time and preserving the original document. When it comes to ensuring efficiency and conserving resources, both systems do their best work with the duplex unit, as double-sided printing and copying saves as much as 50% in paper. The time required to create the first copy is also minimal, at 5.6 or 4.7 seconds, respectively. Your documents are then processed at a rate of 35 or 45 A4 pages per minute for the CD 1435 and CD 1445, respectively. Furthermore, both systems have a network interface for use in teams, a RAM of 1,024 MB and an integrated hard disk.**option*
