DIGITAL MULTIFUNCTIONAL COLOUR SYSTEM CDC 5526L/5626L

# THIS COLOURFUL AND COMPACT HELPER WILL FIT WITH ANY ORGANISATION – NO MATTER HOW SMALL THE SPACE.

HIGH-QUALITY COLOUR PRINTS ARE A MUST, BUT YOU DO NOT HAVE ENOUGH SPACE TO SET UP A LARGE SYSTEM? IF THIS DESCRIBES YOUR SITUATION, THE A4 COLOUR MULTIFUNCTIONAL SYSTEMS CDC 5526L AND CDC 5626L ARE PRECISELY WHAT YOU NEED: THEY OFFER A BROAD RANGE OF FUNCTIONS FOR SMALL TEAMS AND TASK GROUPS WITHOUT TAKING UP A LOT OF SPACE.

The CDC 5526L is a 3-in1 system that produces colour copies, colour printouts and colour scans. The CDC 5626L 4-in-1 version has one more feature: a complete office fax system. Besides this difference, the systems have many specifications in common, such as the productive printing speed of 26 A4 pages per minute (or 13 A4 pages in duplex mode) either in colour or b/w.

The original feeder with auto reverse function that holds up to 50 documents, a duplex mode for paper-saving, two-sided printing and a network function are standard features of both systems. When it comes to scanning, there are many useful functions such as Scan to PC, Scan to e-mail, Scan to FTP, Scan to USB and TWAIN and WIA scan. Moreover, the paper capacity of 300 sheets can be expanded to 1,300 sheets for interruption-free printing of formats from A6R to A4. The system memory of 768 MB RAM, upgradable to max 1,792 MB RAM, further ensures smooth runnings. In addition, you can add an optional Card Authentication Kit to your CDC 5526L or CDC 5626L to protect the system and printouts from unauthorised access. Quite plainly, small can sometimes be very large indeed!
